

KID'S

Nous aimons faire du vélo, purement et simplement. Ainsi, lorsque nous avons décidé de construire des vélos pour enfants, nous les avons conçus comme ceux sur lesquels nous aurions aimé rouler alors que nous étions nous-mêmes enfants. Des vélos haute performance, dotés de caractéristiques et de technologies directement issues des vélos sur lesquels nous roulons actuellement. Des vélos tellement légers, stables, faciles et agréables à piloter qu'ils portent en eux le pouvoir de transmettre la passion du vélo pour toute la vie. Au bureau, nous appelons ces petits Cannondale les "héritiers" car ils sont véritablement conçus pour transmettre quelque chose à la génération suivante, quelque chose de précieux : l'amour de rouler à vélo. Faites-le passer !

KID'S LINE

L'héritage des vélos haute performance de Cannondale apparaît de manière évidente dans toute notre gamme de vélos pour enfants. Des cadres ultra légers avec des tubes de direction surdimensionnés et des soudures lisses. Des haubans conçus pour absorber les vibrations. Des composants légers en alliage d'aluminium. Le passage interne des câbles de frein arrière pour préserver l'esthétique et pour éviter les pincements de doigts. Des selles confortables spécialement adaptées. Des graphismes inspirés de la compétition. Tous ces éléments nous permettent de proposer des vélos nettement au-dessus du lot. Ils doivent l'être. Ce sont des Cannondale.
